SUMMARY

Frontend Developer with 1 year and 2 months of experience developing scalable frontend modules for web applications using React.js, JavaScript, HTML, CSS, and Bootstrap. Familiar with Node.js, Express.js, PostgreSQL, Docker, AWS EC2, Linux, Git, and CI/CD through hands-on project experience.

PROFESSIONAL EXPERIENCE

Junior Frontend Developer

Sawara Solutions Pvt Ltd (Promilo)

02/2025 – 05/2026 | Bengaluru, India

- Developed and maintained product modules (Application Form, Campus Visit, Prospect Grouping, Intent Engine) across User, Advertiser, and Admin platforms using React.js.
- Built reusable and scalable UI components, reducing development time and improving UI consistency across applications.
- Integrated frontend with REST APIs and updated API integrations for smooth data flow.
- Implemented analytics event tracking using non-blocking APIs to monitor user interactions without impacting application performance.
- Optimized application performance by improving component rendering and minimizing unnecessary re-renders using React.js best practices.
- Resolved frontend bugs, improving application stability and user experience.
- Collaborated with cross-functional teams and managed tasks using Azure DevOps (VSTS).

EDUCATION

Master of Computer Applications (MCA)

Aurora's Post Graduate College

2021 – 2023 | Hyderabad

CGPA : 7.98

Bachelor of Science (MPCs)

University Post Graduate College, Secunderabad(OU)

2018 – 2021 | Hyderabad

CGPA : 9.16

SKILLS

Frontend:

- HTML, CSS, Bootstrap, JavaScript, and React.js

Backend:

- Working knowledge of Node.js and Express.js (REST APIs, JWT authentication).

Database:

- PostgreSQL (Hands-on project experience.)

DevOps:

- Familiar with deploying Node.js applications using Docker, AWS EC2, Git, and CI/CD pipelines.

Tools:

- VS Code and Postman

PROJECTS

BuyRSell Mart — Multi-Vendor Marketplace

- Developed a full-stack multi-vendor marketplace using React.js, Node.js, Express.js, and PostgreSQL with customer and seller workflows.
- Built reusable React components and integrated REST APIs for authentication, product management, wishlist, and cart functionality.
- Implemented Redux Toolkit for authentication, product, wishlist, and cart state management with responsive React/SCSS interfaces.
- Developed seller product management features including product creation, inventory, pricing, categories, and image uploads using Cloudinary.

Portfolio

- Developed a full-stack portfolio application using React.js, Node.js, Express.js, and PostgreSQL to showcase professional skills, experience, projects, education, and contact information.
- Built a secure admin portal with JWT authentication, password/OTP login, refresh tokens, and protected REST APIs for visitor enquiries and interactions.
- Integrated a Google Gemini AI assistant using the Google GenAI SDK, custom system prompts, and PostgreSQL-backed conversation context.
- Developed real-time visitor-admin chat using Socket.IO with persistent messages, typing indicators, user status, and email notifications.
- Implemented PostgreSQL-based contact management with message search, counts, deletion, and automated email notifications.
